

Adult ADHD-RS-IV* with Adult Prompts †

The ADHD-RS-IV with Adult Prompts is an 18-item scale based on the *DSM-IV-TR* criteria for ADHD that provides a rating of the severity of symptoms. The adult prompts serve as a guide to explore more fully the extent and severity of ADHD symptoms and create a framework to ascertain impairment.

The first 9 items assess inattentive symptoms and the last 9 items assess hyperactive-impulsive symptoms. Scoring is based on a 4-point Likert-type severity scale: 0=none, 1=mild, 2 = moderate, 3 = severe. Clinicians should score the highest score that is generated for the prompts for each item.

Example: if one prompt generates “2” and all the others are a “1”, by convention, the rating for that item is still a “2”

Significant symptoms in clinical trials are generally considered at least a “2”- moderate.

NAME: _____ DOB: _____ DATE: _____

	None	Mild	Moderate	Severe		None	Mild	Moderate	Severe
0	0	1	2	3	5. Can't organize	0	1	2	3
<p>1. Carelessness</p> <p>Do you make a lot of mistakes (in school or work)? Is this because you're careless? Do you rush through work or activities? Do you have trouble with detailed work? Do you not check your work? Do people complain that you're careless? Are you messy or sloppy? Is your desk or workspace so messy that you have difficulty finding things?</p>					<p>Do you have trouble organizing tasks into ordered steps? Is it hard prioritizing work and chores? Do you need others to plan for you? Do you have trouble with time management? Does it cause problems? Does difficulty in planning lead to procrastination and putting off tasks until the last moment possible?</p>				
<p>2. Difficulty sustaining attention in activities</p> <p>Do you have trouble paying attention when watching movies, reading or attending lectures? Or on fun activities such as sports or board games? Is it hard for you to keep your mind on school/work? Do you have unusual trouble staying focused on boring or repetitive tasks? Does it take a lot longer than usual to complete tasks because you can't keep you mind on a task? Is it even harder for you than some others you know? Do you have trouble remembering what you read and do you need to re-read the same passage several times?</p>					<p>6. Avoids/dislikes tasks requiring sustained mental effort</p> <p>Do you avoid tasks (work, chores, reading, board games) that are challenging or lengthy because it's hard to stay focused on these things for a long time? Do you have to focus yourself to do these tasks? How hard is it? Do you procrastinate and put off tasks until the last moment possible?</p>				
<p>3. Doesn't listen</p> <p>Do people (spouse, boss, colleagues, friends) complain that you don't seem to listen or respond (or daydream) when spoken to or when asked to do tasks? A lot? Do people have to repeat directions? Do you find that you miss the key parts of conversations because of drifting off in your thoughts? Does it cause problems?</p>					<p>7. Loses important items</p> <p>Do you loses things (eg, important work papers, keys. Wallet, coats, etc)? A lot? More than others? Are you constantly looking for important items? Do you get in trouble for this (at work or at home)? Do you need to put items (eg, glasses, wallet, keys) in the same place each time. Otherwise you will lose them?</p>				
<p>4. No follow through</p> <p>Do you have trouble finishing things (such as work/chores)? Do you often leave things half done and start another project? Do you need consequences (such as deadlines) to finish? Do you have trouble following instructions (especially complex, multistep instructions that have to be done in a certain order)? Do you need to write down instructions, otherwise you will forget them?</p>					<p>8. Easily distractible</p> <p>Are you ever very easily distracted by events around you such as noise (conversation, TV, radio), movement or clutter? Do you need relative isolation to get work done? Can almost anything get your mind off of what you are doing, such as work, chores, or if you're talking to someone? Is it hard to get back to a task once you stop?</p>				
<p>5. Can't organize</p> <p>Do you have trouble organizing tasks into ordered steps? Is it hard prioritizing work and chores? Do you need others to plan for you? Do you have trouble with time management? Does it cause problems? Does difficulty in planning lead to procrastination and putting off tasks until the last moment possible?</p>					<p>9. Forgetful in daily activities</p> <p>Do you forget a lot of things in your daily routine? Like what? Chores? Work? Appointments or obligations? Do you forget to bring things to work, such as work materials or assignments due that day? Do you need to write regular reminders to yourself to do most activities or tasks, otherwise you will forget?</p>
